

Learning times tables is a very important skill in lots of areas of maths and also real life.

Times Tables Rockstars is a fun and challenging program used to support the children in learning, practising and consolidating their recall of multiplication facts. The program is carefully built in a sequence to allow children to build their speed and accuracy of their times table recall as they play.

The website can be accessed in school and at home on any device. There is also a free app which you can download to allow your child to practice. Each child has their own login details.

If you would like some more information, are having trouble accessing Times Tables Rockstars at home or have any questions about the system please speak to your child's class teacher.
